### **General Objectives of Cultural Affairs and Extracurricular Management**

- 1) Providing an appropriate, healthy and lively situation for the scientific, cultural and social development of academics.
- 2) Improving the level of academics' knowledge towards religious, cultural, social and political issues.
- 3) Protecting religious and nation identity and trying to promote them.
- 4) Identifying individual and group capabilities and skills of the academics and providing an appropriate situation to offer them.

5) Quantitative expanding and qualitative improvement of cultural and extracurricular activities by using individual and group potentials and relevant internal and external institutions of the KUMS with the aim of increasing social vitality.

6) Attracting maximum participation of academics in decision-making and the execution of cultural programs.

7) Trying to increase social capabilities, preventing cultural and social damage and increasing social and public vitality.

8) Trying to scientifically execute all cultural and extracurricular activities.
