

# کارگاه حضوری جستجوی پیشرفته در Pubmed

دانشگاه علوم پزشکی کرمان  
معاونت آموزشی  
مرکز مطالعات و توسعه آموزش پزشکی  
واحد توانمندسازی اساتید

مدرس:

سرکار خانم دکتر ناهید گویلی

عضو هیات علمی و

سرپرست کتابخانه مرکزی دانشگاه

زمان: دوشنبه

۱۴۰۵ / ۳ / ۲۵

ساعت: ۱۰ الی ۱۲

مکان: سالن شهید رستم پور

دارای امتیاز توانمندسازی اساتید

صدور گواهی منوط به حضور در کارگاه و تکمیل لینک ارزشیابی می باشد

Advanced

PubMed® comprises more than 40 million citations for biomedical literature from MEDLINE, life science journals, and online books. Citations may include links to full text content from PubMed Central and publisher web sites.

# About PubMed

PubMed is a free resource supporting the search and retrieval of biomedical and life sciences literature with the aim of improving health—both globally and personally.

PubMed contains more than 40 million citations and abstracts of biomedical literature. It does not include full text journal articles; however, links to the full text are often present when available from other sources, such as the publisher's website or [PubMed Central \(PMC\)](#).

Available to the public online since 1996, PubMed was developed and is maintained by the [National Center for Biotechnology Information \(NCBI\)](#), at the [U.S. National Library of Medicine \(NLM\)](#), located at the [National Institutes of Health \(NIH\)](#).

## About the Content

Citations in PubMed primarily stem from the biomedicine and health fields, and related disciplines such as life sciences, behavioral sciences, chemical sciences, and bioengineering.

PubMed facilitates searching across several NLM literature resources:

### MEDLINE

[MEDLINE](#) is the largest component of PubMed and consists primarily of citations from journals selected for MEDLINE; articles indexed with MeSH (Medical Subject Headings) and curated with funding, genetic, chemical and other metadata.

### PubMed Central (PMC)

Citations for [PubMed Central \(PMC\)](#) articles make up the second largest component of PubMed.

PMC is a full text archive that includes articles from journals reviewed and selected by NLM for archiving (current and historical), as well as individual articles collected for archiving in compliance with funder policies.

### Bookshelf

The final component of PubMed is citations for books and some individual chapters available on [Bookshelf](#).

Bookshelf is a full text archive of books, reports, databases, and other documents related to biomedical, health, and life sciences.

# PUBMED OR NLM GATEWAY

# Example for PubMed Clinical Queries

vitamin D cancer prevention

breast cancer diagnosis

smoking and lung cancer etiology

metformin pregnancy fetal safety

Does drinking coffee increase the risk of heart attack in diabetic people?

"cognitive impairment in multiple sclerosis"[tiab:~0]
